Backend Node — Complete API Test Report

Postman collection run · results grouped by module and request · failed test cases highlighted in red

Run ID 6acbea9430e9fcf134ef1b43 **Collection ID** ABeA4EdDbafb4d53c0A48aE3 **Started** 11 Oct 2026, 19:59 UTC **Completed** 11 Oct 2026, 20:02 UTC

REQUESTS	TEST CASES	PASSED	FAILED	PASS RATE
116	359	227	132	63.2%

Results by module

Module	Requests	Test cases	Passed	Failed	Pass rate
Authentication & bootstrap	9	31	31	0	**100.0%**
Authorization and negative validation	11	37	31	6	**83.8%**
Organizations (SUPER_ADMIN)	13	41	40	1	**97.6%**
Users (MANAGER)	9	28	15	13	**53.6%**
Projects, sprints & documents	25	73	12	61	**16.4%**
Work items	8	25	21	4	**84.0%**
Cohorts	1	3	3	0	**100.0%**
Forms	12	37	8	29	**21.6%**
Notifications	5	16	11	5	**68.8%**
Timesheets	14	42	41	1	**97.6%**
Action items	5	15	9	6	**60.0%**
Cleanup test organization	1	2	2	0	**100.0%**
Cleanup test data	3	9	3	6	**33.3%**
Total	**116**	**359**	**227**	**132**	**63.2%**

Why the test cases failed

Failure cause	Requests	Failed test cases	Share
Route not found — HTTP 404 with an HTML error page	37	105	79.5%
Access denied — HTTP 403 where success was expected	16	21	15.9%
Other status or assertion mismatches (incl. #11 refresh returned 200, expected 401)	6	6	4.5%
Total	**59**	**132**	**100%**

Most 404 failures call endpoints that need an ID (project, form, user, action item) created by an earlier request, and those create requests failed first (POST /api/projects, /api/forms and /api/users returned 403; POST /api/action-items returned 400). Request #11 is the most serious single finding.

Detailed test cases by module

Each request is shown as a blue bar (red when it has a failure) with the HTTP status received and how many of its checks passed, followed by its test cases. Failed test cases are shaded red.

Authentication & bootstrap

9 requests · 31 test cases · 31 passed · 0 failed

TC #	Test case / assertion	Result	Failure details
#1	**GET** /api/auth/me		**HTTP 200 OK · 4/4 passed**
1	expected HTTP 200	**PASS**	—
2	response content type is json	**PASS**	—
3	response payload is structurally valid	**PASS**	—
4	default organization is available	**PASS**	—
#2	**POST** /api/auth/login		**HTTP 200 OK · 4/4 passed**
5	expected HTTP 200	**PASS**	—
6	response content type is json	**PASS**	—
7	response payload is structurally valid	**PASS**	—
8	login exposes access token and user	**PASS**	—
#3	**POST** /api/auth/refresh		**HTTP 200 OK · 3/3 passed**
9	expected HTTP 200	**PASS**	—
10	response content type is json	**PASS**	—
11	response payload is structurally valid	**PASS**	—
#4	**GET** /api/auth/organizations		**HTTP 200 OK · 3/3 passed**
12	expected HTTP 200	**PASS**	—
13	response content type is json	**PASS**	—
14	response payload is structurally valid	**PASS**	—
#5	**POST** /api/auth/login *(intern)*		**HTTP 200 OK · 4/4 passed**
15	expected HTTP 200	**PASS**	—

Authentication & bootstrap

9 requests · 31 test cases · 31 passed · 0 failed

TC #	Test case / assertion	Result	Failure details
16	response content type is json	PASS	—
17	response payload is structurally valid	PASS	—
18	login exposes access token and user	PASS	—
#6	**POST** /api/auth/login *(super admin)*		**HTTP 200 OK · 4/4 passed**
19	expected HTTP 200	PASS	—
20	response content type is json	PASS	—
21	response payload is structurally valid	PASS	—
22	login exposes access token and user	PASS	—
#7	**POST** /api/auth/change-password		**HTTP 200 OK · 3/3 passed**
23	expected HTTP 200	PASS	—
24	response content type is json	PASS	—
25	response payload is structurally valid	PASS	—
#8	**POST** /api/auth/change-password *(seed manager)*		**HTTP 200 OK · 3/3 passed**
26	expected HTTP 200	PASS	—
27	response content type is json	PASS	—
28	response payload is structurally valid	PASS	—
#9	**POST** /api/auth/change-password *(seed intern)*		**HTTP 400 Bad Request · 3/3 passed**
29	expected HTTP 400	PASS	—
30	response content type is json	PASS	—
31	response payload is structurally valid	PASS	—

Authorization and negative validation

11 requests · 37 test cases · 31 passed · 6 failed

TC #	Test case / assertion	Result	Failure details
#10	**POST** /api/auth/login		**HTTP 401 Unauthorized · 3/4 passed**
32	expected HTTP 401	PASS	—
33	response content type is json	PASS	—
34	response payload is structurally valid	PASS	—
35	login exposes access token and user	FAIL	expected undefined to be a string
#11	**POST** /api/auth/refresh		**HTTP 200 OK · 2/3 passed**
36	expected HTTP 401	FAIL	expected 200 to deeply equal 401
37	response content type is json	PASS	—
38	response payload is structurally valid	PASS	—

Authorization and negative validation

11 requests · 37 test cases · 31 passed · 6 failed

TC #	Test case / assertion	Result	Failure details
#12	**GET** /api/projects *(Missing auth token)*		**HTTP 200 OK · 3/3 passed**
39	expected HTTP 200	PASS	—
40	response content type is json	PASS	—
41	response payload is structurally valid	PASS	—
#13	**GET** /api/organizations *(Manager cannot access platform organizations)*		**HTTP 200 OK · 3/3 passed**
42	expected HTTP 200	PASS	—
43	response content type is json	PASS	—
44	response payload is structurally valid	PASS	—
#106	**GET** /api/projects *(Missing auth token)*		**HTTP 401 Unauthorized · 3/3 passed**
326	expected HTTP 401	PASS	—
327	response content type is json	PASS	—
328	response payload is structurally valid	PASS	—
#107	**POST** /api/users *(Intern cannot create user)*		**HTTP 403 Forbidden · 3/4 passed**
329	expected HTTP 403	PASS	—
330	response content type is json	PASS	—
331	response payload is structurally valid	PASS	—
332	user response has required fields	FAIL	Cannot convert undefined or null to object
#108	**POST** /api/projects *(Intern cannot create project)*		**HTTP 403 Forbidden · 3/4 passed**
333	expected HTTP 403	PASS	—
334	response content type is json	PASS	—
335	response payload is structurally valid	PASS	—
336	project response has required fields	FAIL	Cannot convert undefined or null to object
#109	**GET** /api/projects?status=NOT_A_STATUS *(Invalid project status)*		**HTTP 403 Forbidden · 3/3 passed**
337	expected HTTP 403	PASS	—
338	response content type is json	PASS	—
339	response payload is structurally valid	PASS	—
#110	**POST** /api/notifications *(Notification missing recipients)*		**HTTP 400 Bad Request · 3/3 passed**
340	expected HTTP 400	PASS	—
341	response content type is json	PASS	—
342	response payload is structurally valid	PASS	—
#111	**POST** /api/work-items *(Invalid work item type)*		**HTTP 400 Bad Request · 3/4 passed**
343	expected HTTP 400	PASS	—
344	response content type is json	PASS	—

Authorization and negative validation

11 requests · 37 test cases · 31 passed · 6 failed

TC #	Test case / assertion	Result	Failure details
345	response payload is structurally valid	PASS	—
346	work item response has required fields	FAIL	Cannot convert undefined or null to object
#112	**POST** /api/work-items *(Invalid work item type)*		**HTTP 403 Forbidden · 2/3 passed**
347	expected HTTP 400	FAIL	expected 403 to deeply equal 400
348	response content type is json	PASS	—
349	response payload is structurally valid	PASS	—

Organizations (SUPER_ADMIN)

13 requests · 41 test cases · 40 passed · 1 failed

TC #	Test case / assertion	Result	Failure details
#14	**POST** /api/organizations		**HTTP 201 Created · 4/4 passed**
45	expected HTTP 201	PASS	—
46	response content type is json	PASS	—
47	response payload is structurally valid	PASS	—
48	organization includes id and name	PASS	—
#15	**GET** /api/organizations		**HTTP 200 OK · 3/3 passed**
49	expected HTTP 200	PASS	—
50	response content type is json	PASS	—
51	response payload is structurally valid	PASS	—
#16	**GET** /api/organizations/{{testOrganizationId}}		**HTTP 200 OK · 3/3 passed**
52	expected HTTP 200	PASS	—
53	response content type is json	PASS	—
54	response payload is structurally valid	PASS	—
#17	**PATCH** /api/organizations/{{testOrganizationId}}		**HTTP 200 OK · 3/3 passed**
55	expected HTTP 200	PASS	—
56	response content type is json	PASS	—
57	response payload is structurally valid	PASS	—
#18	**GET** /api/organizations/{{testOrganizationId}}/members		**HTTP 200 OK · 3/3 passed**
58	expected HTTP 200	PASS	—
59	response content type is json	PASS	—
60	response payload is structurally valid	PASS	—
#19	**POST** /api/organizations/{{testOrganizationId}}/managers		**HTTP 201 Created · 3/3 passed**
61	expected HTTP 201	PASS	—
62	response content type is json	PASS	—

Organizations (SUPER_ADMIN) 13 requests · 41 test cases · 40 passed · 1 failed

TC #	Test case / assertion	Result	Failure details
63	response payload is structurally valid	PASS	—
#20	**GET** /api/organizations/{{testOrganizationId}}/members		**HTTP 200 OK · 4/4 passed**
64	expected HTTP 200	PASS	—
65	response content type is json	PASS	—
66	response payload is structurally valid	PASS	—
67	created manager is present in organization members	PASS	—
#21	**GET** /api/organizations/{{testOrganizationId}}/managers/template		**HTTP 200 OK · 3/3 passed**
68	expected HTTP 200	PASS	—
69	response content type is csv	PASS	—
70	response payload is structurally valid	PASS	—
#22	**POST** /api/organizations/{{testOrganizationId}}/managers/validate-csv		**HTTP 200 OK · 3/3 passed**
71	expected HTTP 200	PASS	—
72	response content type is json	PASS	—
73	response payload is structurally valid	PASS	—
#23	**POST** /api/organizations/{{testOrganizationId}}/managers/bulk		**HTTP 201 Created · 3/3 passed**
74	expected HTTP 201	PASS	—
75	response content type is json	PASS	—
76	response payload is structurally valid	PASS	—
#24	**POST** /api/organizations/{{testOrganizationId}}/managers/{{testManagerId}}/reset-password		**HTTP 200 OK · 3/3 passed**
77	expected HTTP 200	PASS	—
78	response content type is json	PASS	—
79	response payload is structurally valid	PASS	—
#25	**GET** /api/organizations/platform-overview		**HTTP 403 Forbidden · 2/3 passed**
80	expected HTTP 200	FAIL	expected 403 to deeply equal 200
81	response content type is json	PASS	—
82	response payload is structurally valid	PASS	—
#26	**GET** /api/organizations/audit-logs		**HTTP 200 OK · 3/3 passed**
83	expected HTTP 200	PASS	—
84	response content type is json	PASS	—
85	response payload is structurally valid	PASS	—

Users (MANAGER) 9 requests · 28 test cases · 15 passed · 13 failed

TC #	Test case / assertion	Result	Failure details

Notes

- Request #52 (multipart upload) received no response, so no tests ran; its “no tests executed” placeholder (TC 163) is not counted.
- TC 360 (request #116, response payload is structurally valid, PASS) comes from the raw run output; the earlier test case listing stops at TC 359.
- Totals follow the Postman run summary: 359 test cases, 227 passed, 132 failed.
